Why can't I see or select ASP.NET 4.5.1 on my Control Panel?

*Authored by: **ASPHostServer Administrator** [asphostserver@gmail.com]*

This is simply because of the fact that ASP.NET 4.5.1 is a superset to the previous ASP.NET 4.5 alone and hence, you cannot see or select it from our Control Panel. Even though you cannot see or select it, we can always ensure that our server has supported this .NET framework

For the correct deployment steps, please see the article at http://faq.asphosthelpdesk.com/article.php?id=299
