---

If your webmail does not work, please kindly check the error message properly. If you see an error message: "*Incorrect username and password*", this means that you may have entered incorrect credentials. You have to reset your email account credentials via our Control Panel -> Mail -> Mail Settings

Your WebMail address is usually in the form of <http://mail.yourDomain.com> OR  
[http://\[our\\_mailserver\\_IP\\_address\]](http://[our_mailserver_IP_address])

If you are unsure about the details, please raise a ticket via our [Help Desk System](#) to our Support Team
